

Churston Manor Covid 19 Hygiene statement

For the safety of both our customers and staff we have put in place additional health and safety procedures. These extend to personal hygiene of our staff, cleaning procedures within the Lawn Bar and the building, and social distancing. The below details are published to give guidance for our customers visiting the Lawn Bar.

Social distancing

All seating arrangements are in place to meet the default 2 metre government advice for social distancing. We are encouraging everyone to book online using the simple ERB app, and if this is not used we cannot guarantee admission. All tables must be returned after their allotted time.

Personal hygiene

All staff members have undertaken training in health and safety, food hygiene and specific coronavirus training, and are not allowed to work for us unless they have passed this training. Staff members will also be adhering to strict personal hygiene requirements when on the premises.

Sanitising station

There will be a sanitising station at all entrances and exits for customers and staff. Please ensure that these are used on arrival.

The Toilet entrance will have a sanitising station.

Following these guidelines will help protect both our staff and customers in these difficult times.

STAY ALERT – CONTROL THE VIRUS – SAVE LIVES
